

## Push and Pull

Dolly Parton

All I'm trying to do is just give you some good advice  
And you give it so freely but hey this is my life  
You don't have to be cruel, you don't have to be so cold  
I guess we're both hellbent on keepin' our own control

So I push you away and then I pull you in  
We say what we have to say and make up again  
We cut to the bone but just as soon as it mends  
We're back to push and pull and oh it never ends

Mothers, daughters, sons, fathers, and friends  
Siblings, couples, and lovers are always in  
Some situations forcin' them to go  
Straight through the heart and injuring the sun

So I push you away and then I pull you in  
We say what we have to say and make up again  
We cut to the bone and just as soon as it mends  
We're back to push and pull and oh it never ends

We might just start up a fight  
'Cause we just can't leave it alone  
Tellin' each other it's just 'cause I love you  
Are we ever gonna get alone

So I push you away and then I pull you in  
We say what we have to say and make up again  
But if we try you and I could make amends  
'Cause in push and pull nobody ever wins  
It's a push and pull when will it ever...
