

## Secrets

Dolly Parton

Secrets, you're good at keeping secrets  
Especially your own  
Aw, come on, open up and let me in  
Everybody needs a friend  
Want you to know you can depend on me  
(Mmm-Mmm)

Secrets, all those things you hold too close  
That you're afraid to share  
But I care  
Don't be afraid to open up  
I'm someone that you can trust  
And I will keep it between us  
I swear

No matter what's gone on before  
Don't hold it in a moment more  
I'm here to lend a sympathetic ear  
You don't have to hold inside  
Things that need to see the light  
I won't judge or criticize  
Just know you're safe with me  
(Mm-mm, mm-mm, mmm-mm)

Secrets, you're good at keeping secrets (Secrets)  
Especially your own  
You're not alone  
And you'll feel much better if you try  
To put some faith in you and I  
I don't gossip, I don't lie  
Try me

Secrets, I'm good at keeping secrets  
Especially my own  
(Mm, mm, mm)
