```
It's Saturday night and it's a perfect night for dancin' I've had my makeup off and on all day
But it's gotta be right for a night of sweet romancing
And I've combed my hair at least a thousand ways
Mirror Mirror don't you tell a soul
Of how I smiled and talked all day to you
And how I practiced every step I know of
But tonight's the night and I'm a dancing fool
```

```
(It's a sure thing) when the sun goes down this evenin'
(It's a sure thing) to be out on the dancing floor
(It's a sure thing) I'll be the last one leavin'
(It's a sure thing) gonna dance till I can't no more
```

I could of had a date but I thought I'd take my chances I'm gonna dance with a different guy to every song Then I'm a gonna wait till the right one strikes my fancy The he's gonna be the one to dance me home

```
(It's a sure thing) when the sun goes down this evenin'
(It's a sure thing) to be out on the dancing floor
(It's a sure thing) I'll be the last one leavin'
(It's a sure thing) gonna dance till I can't no more

(It's a sure thing) when the sun goes down this evenin'
(It's a sure thing) to be out on the dancing floor
(It's a sure thing) I'll be the last one leavin'
(It's a sure thing) gonna dance till I can't no more
