

## 'Til Death Do Us Part

Dolly Parton

Today you told me that you'd found another  
And you took off your golden wedding band  
The one you vowed you'd wear until death do us part  
When I kissed it and placed it on your hand  
A wreath will hang upon the door tomorrow  
Of the little house that we once called our home  
And friends will stop and hang their heads in sorrow  
To pay the last respects to one gone on

Tonight I lay me down to sleep forever  
With this small empty bottle and broken heart  
I keep the vow I made I won't forsake it  
I promised to death do us part

Will you bring your new love to the chapel  
To look upon the one that you betrayed  
Will you bring me pretty flowers like you used to  
And replace them in my hands where I lay

Will you cry and think of happy mem'ries  
That we shared together at the start  
And will you look upon me and remember  
the day we said till death do us part
