

Over My Dead Body

Dom Corleo

You know how I get when I be off that molly
Pop another, now I'm geeking out my body (Out my body)
Take the swag, that's over my dead body (My dead body)
When it's over, we should leave this party
I got this codeine in my body
Ride off in this 'Rari
Girl, you know I'm ballin'
No, I don't do much talkin'
You say you wanna hop in, but you don't do this often
I picked you up first, look like I ain't had an option
I know I was your first and we ain't really been talkin'
Take you to my room and give it to you, toxic
I been off that codeine, got me feeling nauseous
In this club, yeah
In this club, Siberia, in this club
In this club, yeah, in this club, Siberia
