

Hypnotized

Dom Kennedy

Uh

This the realest thing that she heard all night
For real

I can't deny
You the one I really see in my life
You the one that make me feel hypnotized
First ring baby answer every time

Big racks on me, no lil' stuff
Got a little red wine in my cup
Ooh, I thought a fine bitch said sum'n
Girl I like the way you got your hair done
Swi- swing it my way, I'll knock it out
But your man got you on lockdown
The party come here, we don't go out
Don't hit my phone when it's sold out

I can't deny
You the one I really see in my life
You the one that make me feel hypnotized
First ring baby answer every time
(Hello)
Every time
Check this out
Baby answer every time

How you feel when you around me
What's all the commotion, I was on when you found me
My love is an ocean, leave you drowning
We gotta have loyalty, or there's penalties
People dying over greed, seen it all, A to Z
And I pray faithfully, I'll make a way for me
Haters stay away from me, I'm in it waist deep
You started balling last week, I put niggas on

Are you available
Tell me something else that I should know
Tell me something good that I should know
Tell me something good that I should know

I can't deny
You the one I really see in my life
You the one that make me feel hypnotized
First ring baby answer every time
(Hello)
Every time
Every time
Hit her on the first ring, she answer every time

Hello
Yeah
It's me
Leimert Park
Uh
Yeah
(Other People's Money)

I like how that sounds

Uh

Yeah

Ayy

Hit her on the first ring, she answer every time
