

On The Way Home

Dom Kennedy

Alright

It smell good too... that's that platinum

Yeah

New hoes, hit em on my new phone

Take her to my new spot, let her hear my new song

I just wanna groove on

I don't sip Nuvo, all these kids smoking, really nothing new though

Coming out the westside, you already knew though

Say you seen me with that bitch, it ain't true though

Kids wanna rap now, need to stay in school though

I wanna give a big shoutout to DJ Pooto

Running from, Deebo

Niggas got, egos

What happen to the beat, damn I miss Theo

I use to smoke stress, now the shit legal

I can make a Rolls Royce fell like a Regal

Pulling up, Peeko

Feeling like, Rico

I could stash 10 thousand dollars in my peacoat

I just wanna freak hoes

I just wanna get doe

I just wanna take her to the lot and get my whip chrome

In my mid 20's, that's what I sit on

Girls grab my pants like "Damn boy yo sh-long"

You need to caress it

I ain't even stressin'

Before you wake up on my dick eat breakfast

And she got pictures, tell her just text it

We ain't got time to have sex, we flexin'

I can see the bottom of her cheek when she strechin'

I hope you don't sleep, cause you know I'm gone catch it

323, you know I'm gone rep it

Other people's money, can you see it on my necklace

You drinking while you driving, nigga that's reckless

Let the girls roll, man tell her get naked

Walk up to her car like "What is this, a Lexis?"

Got a fat ass, "What are you from Texas?"

You don't like me, "What are you, tasteless?"

Put the seat back, damn I wonder where her face went

I'm trying to get right, she trying to get on

This a good trade when we on our way home

She fuck with Trey Songs

I had to play Bone

Do what you do, we ain't finna take long

And my mom don't meet every girl I take home

It's so many places that I'm wanna to get flown

I'm trying to get right, if you trying to get on

I figured we can do something on the way home

Oh

That's yo man right there?

Well check it, that nigga don't live around here

So when he leave, you can come back through, we'll still be outside

Aite

And bring some friends!
