

# Immortalis Dominum

## Dominum

Ev'ry young man's dream is an old man's past  
Not a single high's ever goin' to last  
Any dream is a curse  
When I started out had it in my blood  
But the road got dark and I soon got stuck  
Down the line, getting worse

But I rose from the mist  
'Cause I'm all there is  
In my mind there's a plan  
And nobody can be my equal, can be my equal

Burn it down, burn it down  
Now we're getting serious  
Tear it up, tear it up  
'Til I got the best of us  
Here I go, here I go  
I've been waitin' everlong  
There can only be one  
Immortalis Dominum  
Saviour

I was shootin' high, I was aimin' low  
I was crashing down when I cracked the code  
Finally, suddenly  
You can fool yourself, you can mend the wires  
You can stop to hope, you can cut the ties  
But you can't hide from yourself

I will come for you all  
I will rise, you'll fall  
If you won't follow me  
I'm on track, come hell or high water

Burn it down, burn it down  
Now we're getting serious  
Tear it up, tear it up  
'Til I got the best of us  
Here I go, here I go  
I've been waitin' everlong  
There can only be one  
Immortalis Dominum  
Call me, Saviour

You are made of gold, I am made of steel  
When you close your eyes I can make you feel  
Immortalized, just like me

Burn it down, burn it down  
Now we're getting serious  
Tear it up, tear it up  
'Til I got the best of us  
Here I go, here I go  
I've been waitin' everlong  
There can only be one  
Immortalis Dominum

Burn it down, burn it down  
(Whoah, oh, oh, oh, oh-oh)  
Tear it up, tear it up  
(Whoah, oh, oh, oh, oh-oh)  
Here I go, here I go  
I've been waitin' everlong (Whoah, oh, oh, oh, oh-oh)  
There can only be one  
Immortalis Dominum  
Call me, Saviour
