

# Bend

Domo Genesis

You must be crazy, sittin' here dreamin' up fairy tales  
You know very well where niggas failed at  
Put a ceiling on his head  
Outside the box thinkin' in different ways  
You must be crazy, picture this  
I was reminiscin' on the island  
All them days I couldn't have been here

It cleared for me, my understanding's to shift gears now  
All I know is my experience, I really live this shit  
You get out it what you give to it No way around it, I done been through it  
Bend through it, but never break Can't mistake the foundation

Don't get led astray, not a second late  
At a moment's notice, just a step away  
You must be crazy, watch me meditate  
You must be crazy  
You must be crazy, watch me  
Meditate  
You must be crazy, watch me meditate
