

# I See U, Doing U

Domo Genesis

Fuck a crime fighter, I'm strictly trying to switch the timeline up  
Can't cover the tracks, slicking crooked as a sidewinder

Pour some liquor for niggas that died prior  
What it required from us  
I was hellbent on  
Gasoline doused on Satan ground  
Put that shit on  
I never slip, hardly gifted with my presence  
If I'm ahead of shit  
It was my time before they set this shit, I knew it

It's in the wind like the first major check that I seen, I blew it  
You gotta do it how you do it, Difficulty on God mode  
I got the safe keys and launch codes  
Flood the block, it's open shop and we are not closing

Trench flowing waters filling up the potholes

Unh, yeah, worldwide, Richmond shit, yeah  
I play the blind side, stamping this shit, so I said to my  
It's a far cry from hell, he left Baby Boy with his

See my queens, I'm high when they get low  
When unload them things, let my folks just calm  
But taking notes and drama left a stain, I can't lie  
It's only win or lose, I'm never one to tie

And everything them niggas showed me made my comfort more dry  
Can't let nobody that don't love they self, you probably hate a nigga  
Sacrificial lamb, I take a hit, so you ain't gotta feel it  
But you benefittin too God, I'm setting new laws, the well went dry

These pigs can't fly, so I need them more  
Niggas like to tie their hands and wait for miracles  
Let's pause right there, it's all fair, just dissolve their fears  
This all in my head and I know it too

Remain coachable, fuck advice if I don't know the dude  
The internet controlling you  
Goddamn
