

We get high 365
Now I got three lit eyes and peace of mind

Riding in my car and I'm listenin' to the radio
I'm listenin' to a real nigga sing
Sing about how he gon' roll that smoke
Get you high as the stars
No g-o-v only that natural
When you're broke it gets mighty cold
Don't act as if you did not know
I fell in love from the start
First it was eighths, now I'm coppin' O's
While these bill collectors blow my phone
All they hearing is the dial tone
'Cause I'm high
Woah I'm high, yeah

We get high 365
Now I got three lit eyes and peace of mind

You know a nigga had to talk weed on a weed song
Get high, get my Domo OG on
Making change 'round here where you don't belong
You ain't worried 'bout no problems when your weed strong
Shizzle my nizzle, I'm cracking codes to this riddle
Don't bring me down, let a nigga kick it a little
You know the vibes and all this ambition official
You suckers better catch this weight before it hits you
Killing shit, running this bitch like Mike Alstott
Mind racing like the rim spinning when the car stop
Different shit, spaceship whippin' off the car lot
And I'm about to haul out, I'll show you what I'm talkin' about

We get high 365
Now I got three lit eyes and peace of mind
