The way we do this shit get analyzed  
Besides the hook where the hammer lies  
It's action, fuck the camera time, it's handled  
Swift as that advantage lined up  
We did the toughness, niggas pantomimed  
It's nothin' iffy what I stand behind  
As mighty as an Anaheim Duck  
It's in the sands and if you see it then it's panic time  
It's static, all your channel lines up  
Can't nothin' in your plans decide us, just know the road was n  
ever glamorized  
If it's on me, I'm betting every time  
They can't even throw no shots in my direction  
They gon' hate when you proceed cause that's gon' show em they  
reflection  
But what the fuck was you expectin'  
I gotta bleed em, no exceptions  
Can't show no love, that shit might get you killed, for real  
Treading water tryna hold it still  
Trepidation over shit I didn't know that I could feel  
No unexpected cost  
None of my six senses ever off  
Seventh heaven set my depth perception  
I left it pressure washed  
World class trouble, I'm the solver til' it's settled  
Steady revolving like roulette do  
World class trouble on the daily  
Solving world class trouble on the daily  
World class  
If you ain't first you in last  
And they said the first should be last  
Solving world class  
Trouble  
On the daily
