

# Rough Diamonds

Domo Genesis

Ay

I'm brewing all this pride that I got  
Nigga said screw it like 5000 watts  
I ain't even stop to set the time on this watch yet  
It's for the flex, a small admission to the truth that I've been getting checks  
I'm blessed  
City of champs' finest  
That's rough diamonds in the dirt, the rest timeless  
I hate seeing my mama go to work, I stay invested  
Cuz it ain't nothing promised on this earth, you niggas extra  
They smut your whole name up  
You coulda ran plays, but y'all done fucked the whole game up  
It's ugly outside, it's real til you fuck it these days  
Let the money decide, but it still look funny when the light hits it  
Sanitize and cover my eyes nigga cause time sick  
Grammy plaques from a nigga was moving packs to a classic off this rap shit  
I still salute my brother for that  
Family ties, it don't get no more blooder than that  
Out the tub with the substance we gon flood 'em with that  
Pour out some yak for the resting heads  
Have some mercy on the living  
God bless the dead

It's complicated

Loving me ain't easy, keep concentrating  
And I keep going through shit, I come out and changing  
Come out it like loose change is if something's shakey  
Wisdom exchanging, blood ties, I'm politicking with bangers  
Having bangers, having heads from different angles  
On ways to get paid  
Baby, it's all in the grain  
The leaf paper blew that shit on the chain  
Puff a little weed to the brain  
Chanel vintage for my Westfield niggas  
City symbol on my fitted from my Fox Hills visits  
Kept it a million, signal crashing, restore the feeling  
They ain't understand the pieces we was building  
Dreaming like Selena Quintanilla  
Contemplate the whole game scheme was too vanilla  
Cuz we ain't show the hands yet  
Expanding like spandex  
I'm checking through the plans, game time for the vet  
Many of you silly getting slammed  
Ain't a gram, I'm still drawing pictures in the sand
