

This 2 Shall Pass

Domo Genesis

Coming down from coming up with something
This shit be sick
It's well wishes even from a distance

Ain't got no hard feelings besides intensity
All I want is what was meant for me
My kicks, ten toes in something sturdy
In the current standing like the cement

Heart of gold like one of my first songs said
We never deviated
The bathing apes from 06
Many stripes on my collar since

Legit, it's never parlor tricks
Cheap attempts
Tongue in cheek thinking they slick
The jokes got truth to them

The holes got loops thru them
The roads got smoothed too
Kept my money on the body and the music
Imitating art words to the almighty

We the muses
We the muses
How can I even paint this picture for you
Listen

They say your strength in this game
Is your will to survive
You must stay ahead of the curve
And either move with the tide

Never rode a wave
I make my own city motion with mine
The clock is moving
Since they watch the show

I'm testing the times
Grinding and earn my stripes
And them checks hit like Nikes
If the inspiration was needed

I went and booked me a flight
Been around the world
See it all through a new lens on my life
Patience is key

Indulge when the fruits of my labors are ripe
Look a lot of these niggas raps
Be based on false stories

Seen it in real time
When it cuts, detect the lies like I'm Maury
Look at these characters
An actor for the smallest piece of glory

I ain't have to front for the masses To adore me
You see me
At the rave

Smoking blunts
Wider than Jaco Jeans
Pockets on evergreen
Shorty fly like she stepped out of magazine

Proud of this product
Ah, she so mean
Slick as these Pennie's
Pushing the Porsche pedal

When I sped on the scene
Gone
