

Trust The Process

Domo Genesis

(Get ready)

Yeah, yeah

Pokerface, playing crazy, niggas must've forgot
Info-tainer, only way my name spun on your block (Skrtrt)
Hall of fame shit, already walking
Just for the sake of conversation, change the way we talking
Every wave, I dropped game, I gave these niggas options (What?)
Every play I sat in place could break a nigga conscience
Always say my grace before I made a plate
The greatest to ever lace pair of Bathing Apes
I know they hate it 'cause they can't relate (Sheesh)
I'm in that water wading
Weight of the world on my shoulder strong as Winter Soldier's is
I'm in that, still smoking like a pistol holder
I signed the deal and I ain't feel emotions
One of the realest chosen
This shit was written since I slipped in this planet
You don't get what I granted
Niggas couldn't even sit where I'm standing
Planted magic my hand and I renewed the plans
Taking risks, I threw the dice like the voodoo man
We went from thugging on the block to going Super Saiyan
Somewhere between the lies stopping and the truth begins
You niggas never really been it
I was in it and I sealed the curse
It's like we living on two different Earths
Uh, and still spinning

And I ain't stop yet, locked in to the process (Yeah)
'Til it ain't a clip in the stock left
So far away, what's on my mental? It's concepts
What's understated, they can't take out of context
It's really active gas like what we looking backward for?
Director and the actor from the closing of the chapter for us
The trail was blazed, I never let 'em track the source
My hell was paid, the fuck you think this cash was towards?
Putting nothing past the scope, I leave the ashes smoking
It's hashish in my lungs, a bunch of plastic in the ocean
Toxic, toxic, I started out of nonsense
Action nonstop to climb out of my conference
I'm here, nigga
Thought he lost, but he a gear shifter (Uh)
I'm putting fear into you weird niggas (Uh)
Might decrease your gimmick on the spot
When I slip through, I'ma spin it nonstop
Uh, still spinning

What you doin'?

I was lookin' up violins
