I've been feeling low, but at least I know I'm

Free, free ta be you alone  
Free'll ta breathe on your own  
See I keep running but I'm going no where, no where

Free ta be you alone  
Free ta breathe on ya own  
I keep running but I'm going  
No where, no where

I bet they get something to fix me yeah  
A doctor that totally gets me yeah  
I've been to the church & the mosque and I'm lost I'm thinking it totally missed me  
Tell me to move on it offends me  
Strong but I'm falling an feeling flimsy. Failing in telling the devil  
To let up and let me just level up  
If Allah got some room for me, let me up. Heaven wait

Cause I've done a lot of bad things I ain't proud to say out loud in the open I'm hoping when they speaking of Hell and telling us its the opposite of frozen  
And if I don't have health or if I don't have wealth and I ain't never gonna fail so I'm a do it myself. Liquor shots and mo' shots in between em I ain't got nothin but at least I got freedom

Been through a lot and it shows  
Now I only want paper with president faces that's old  
And get paid when I'm owed  
Got a price an get ice that don't ever get cold  
Been in the room with the ones that be poppin the most. An Dey slide me some shrooms and then pop me a dose. And I'm hopin it's soon and den hopin I'm close, and I'll see. How it would be if I'm totally
