

# In My World

Don Broco

Keep on driving til' we smell the sea  
C'mon darling it's just you and me  
And some friends and select family  
The world if they play by all our rules

So please, when we reach the coastline  
Let us dive right in  
Swallow half the ocean  
Teach us how to swim

Where we won't be found for days  
And we won't be bothered  
No we won't be found for days

Turn my phone off so it doesn't ring  
[Better yet] Tie rocks to laptops so they're forced to sink, do  
wn  
Fuse the wires toss that damn machine  
Overboard, cut the power feed it back to me

Drowning out the signal,  
Lose it in the mire  
Gather round the people  
Lead them to the light (to the light)

Where we won't be found for days  
And we won't be bothered  
No we won't be found for days, days

I want to taste, I want to feel,  
I want to hear, I want to breathe,  
In my world  
I want to see things for real,  
I want to try everything  
In my world

Where we won't be found for days  
And we won't be bothered  
No we won't be found for days in my world  
We won't be found for days  
We won't be bothered, no  
We won't be found for days.
