

## Invader

Don Broco

Slacken those ropes on command  
Prepare to set sail for new land  
We're coming home, We're coming come

Bleed them dry then throw them your silver

Too, too good  
Not to treat ourselves then pass on by  
And transform some other countries  
To playgrounds, to playgrounds

Ey ey, si'l vous plait your best  
I'll leave with it all your new emperor's gone  
Ey ey, please your very best  
I'll leave with it all in me

They like it in my kingdom, kingdom  
Heard they like it in my kingdom  
What a happy day, such a happy day

No they can't complain because I tip the man  
I pay my way the way no other invader can  
To come and go, to come and go

Bleed them dry then throw them your silver

Pull down the charm, burn the flags  
And build us a castle, set camp  
Make it home, we'll make it home  
Amputate our feet off the table

Too, too good  
Not to treat myself then pass on by  
I'll leave with it all your new emperor's gone  
Treat myself and pass on  
I'll leave with it all in me
