

Knock Knock

Don Carlos

Who's there, don't knock on my door
Go away and check me little more
I need to get some sleep
I was out last night and now am feeling weak
Who's there, don't knock on my door
I won't get up and that's for sure

I need to rest my nerves
Man, you come and get me disturbed
Go away, move from my door
Go away and check me little more

Can't you give me the chance
I will come along and I will nice up the dance
Hear sweet lyrics till you fall in a trance

Everyone just a jump and prance

Who's there, don't knock on my door
Go away and check me little more
I need to get some sleep
I was out last night and now my eyes are weak
Go away, don't knock on my door
'Cause I won't get up and that's for sure

Can't you give me the chance
I will come along and I will nice up the dance
Hear sweet lyrics till you fall in a trance
Everyone just a jump and prance
