

Beautiful Feeling

Don Diablo

Felt like a lifetime ago
When I left my old self for the great unknown
Made a path, no looking back
I'm moving on to something special

Throughout the seasons there's no doubt
There was a drought inside my body
But when I chose to let it out
I felt the water fall back on me

Take my hand
I'm dancing in the rain
Let this in
This beautiful feeling

It gets brighter everyday
Find new friends and let the fake ones fade away
Keep in touch with the sun and my family

Fell out of love too many times
It sucked the soul, the life out of me, right from me
But when you stepped into my life
Again my heart was struck by lightning

Take my hand
I'm dancing in the rain
Let this in
This beautiful feeling (This beautiful feeling)
Take my hand
I'm dancing in the rain
Let this in
This beautiful feeling

Take my hand
I'm dancing in the rain
Let this in
This beautiful feeling
