

Keep Pushin' (Beast)

Don Diablo

Man have come along way we're taking over keep your friends inside
Push comes to shove You think you're rough let's see who's down to ride

Weather storms, see me standing on the lawn
Ready for whatever comes, built for this since I was born
To the darkness we are drawn, separated we get torn
Late at night I'm like a wolf, back to normal by the morn
This is how you reach the stars
No more looking at the past
Come along way this time is ours
Brace yourself and firm your stance
You don't quit when you're this far
Show these people who you are

Cause sometimes we need the beast to come out like rah

Ho
Sometimes we need the beast to come out like rah
Let's go
Keeping it pushing keep it going show us who you are
Ho!
Sometimes we need the beast to come out like rah
Let's go!
Keeping it pushing keep it going show us who you are

They can't stop you when it's destined
Make an entrance hear them roaring this shit come like wrestling
Life is hard you done the math all ready for the testing
Ignore the negativity it's never that interesting
We take planes and touch the sky so there ain't a ceiling
Free yourself of that mentality to know the meaning
Set your goal make a start you want get there dreaming
Power through these obstacles until you get that feeling

No lacking keep pushing
My drive my cushion
My haters we shush em
I see them, they're looking
They dream of what we get out
Don't see the work we put in
They're starving for your greatness
Don't serve them what you're cooking

No lacking keep pushing
Keep pushing
Keep pushing
Keep pushing
Keep pushing ...
Sometimes we need the beast to come out like rah
Keeping it pushing keep it going show us who you are

Sometimes we need the beast to come out like rah

They can't stop you when it's destined
Make an entrance hear them roaring this shit come like wrestling
Life is hard you done the math all ready for the testing
Ignore the negativity it's never that interesting

We take planes and touch the sky so there ain't a ceiling
Free yourself of that mentality to know the meaning
Set your goal make a start you want get there dreaming
Power through these obstacles until you get that feeling

Lately I got something on my mind
I got demons I can't keep inside
Sometimes they release I don't mind
Cause when I'm low they keep me alive
Feeling like your running out of time
Then your motivated by a sign
Ready to put this shit on the line
Scary but I know I will be...
