Make A Change

Don Diablo

You gotta do what you gotta do
You gotta say what you need to say
You gotta move when you gotta move
If you're ever gonna make a change
(Make a change)

If you walk the path
You gotta follow through
Wanna climb that mountain
You gotta love the valleys too
Push it to the limit (To the limit)
'Cause you only get what you give
No regrets and don't look back
Only got one life to live

You gotta do what you gotta do
You gotta say what you need to say
You gotta move when you gotta move
If you're ever gonna make a change
You gotta do what you gotta do
You gotta say what you need to say
You gotta move when you gotta move
If you're ever gonna make a change

Make a change
Make a change
If you're ever gonna make a change
You gotta do what you gotta do
You gotta say what you need to say
You gotta move when you gotta move
If you're ever gonna make a change
Make a change

You can break down the walls
That are keeping you confined (Make a change)
This is your moment
This is your time (This is your time)
Don't you ever give up
If you really want a second chance (Oh yeah)
No regrets and don't look back
Got the power in your hands

You gotta do what you gotta do
You gotta say what you need to say
You gotta move when you gotta move
If you're ever gonna make a change
You gotta do what you gotta do
You gotta say what you need to say
You gotta move when you gotta move
If you're ever gonna make a change

Make a change
Make a change
If you're ever gonna make a change

It is what is
Gonna be what it'll be

```
Just tell yourself
I'm doing this for me

Ever gonna make a change
(If you're ever gonna make a change)
Ever gonna make a change
(If you're ever gonna make a change)
Oh yeah, oh yeah, yeah
(If you're ever gonna make a change)
(If you're ever gonna make a change)

Oh yeah
(Make a change)
If you're ever gonna make a change
(Gonna make a change)
You gotta do what you gotta do
You gotta say what you need to say
You gotta move when you gotta move
If you're ever gonna make a change
Make a change

Oh yeah
```
