

Satellites

Don Diablo

We are the satelllites
We're watching over you
Just look up at the sky
And reach until you to fly
I won't be falling down tomorrow and never forget
We'll guide you high
Just like a satellite

Satelllite, satelllite
Satelllite, satelllite
Satelllite, satelllite
Just like a satelllite

Satelllite

We are the satelllites
We're watching over you
Just look up at the sky
And reach until you to fly
I won't be falling down tomorrow and never forget
We'll guide you high
Just like a satellite

Satelllite, satelllite
Satelllite, satelllite
Satelllite, satelllite
Just like a satelllite

Satelllite
Satelllite
Satelllite

We are the satelllites
We're watching over you
Just look up at the sky
And reach until you to fly
I won't be falling down tomorrow and never forget
We'll guide you high
Just like a satellite
