

Stay Awake

Don Diablo

Ooh, stay the night
Save my life
Help me stay awake
Ooh, see my heart
Through the dark
To one more day

I can't tell you right now how much I need ya
One time, lemme erase
Lemme replace all of the memories
Come, come gimme your love like sweet amnesia
I just wanna escape
Lemme get wasted and forget me
(Wasted and forget me)

Ooh, stay the night
Save my life
Help me stay awake
Ooh, see my heart
Through the dark
To one more day
We all get a little
Get a little lost
Need to feel a touch sometime
Ooh, stay the night
Save my life
Help me stay awake

I just wanna feel numb, just wanna feel nothing
Heart ache filling my eyes
Gimme one night
What are we drinking?
We don't gotta do names
Just don't stop dancing
Goosebumps running my spine
Still, in my mind
You got me thinking

Ooh, stay the night
Save my life
Help me stay awake
Ooh, see my heart
Through the dark
To one more day
We all get a little
Get a little lost
Need to feel a touch sometime
Ooh, stay the night
Save my life
Help me stay awake

Oh my lord
Take control, save my soul
I'm so lost right now
I'm disappearing on the dance floor
It's a blur, everything hurts
I wanna be, wanna be anyone but me now

Ooh, stay the night
Save my life
Help me stay awake
Ooh, see my heart
Through the dark
To one more day
We all get a little
Get a little lost
Need to feel a touch sometime
Ooh, stay the night
Save my life
Help me stay awake

Help me stay awake
Help me stay awake
Help me stay awake
Help me stay awake
