WTF R U!?

Don Diablo

Who the fuck are you to tell me what to do at half past 5?
Like that's alright, yeah
And even though we're through
You're watching what I do
Killing my vibe
And that's not right, yeah
(That—that's not right)

It must be kind of crazy
Thinking you can blame me
For all the shit you do, yeah
So go ahead and hate me
I won't let you shame me
For all the shit I do

Even though we made out a few times
It doesn't mean that I want you
Even though we made out a few nights
Now you're throwing attention
And you ain't even handsome

Who the fuck are you to tell me what to do at half past 5?
Like that's alright, yeah
And even though we're through
You're watching what I do
Killing my vibe
And that's not right, yeah
(That—that's not right, that—that's not right)

It must be kind of crazy
Thinking you can blame me
For all the shit you do, yeah
So go ahead and hate me
I won't let you shame me
For all the shit I do

Who the fuck are you to tell me what to do at half past 5?
Like that's alright, yeah (That—that's not right)
And even though we're through
You're watching what I do
Killing my vibe
And that's not right, yeah
(That—that's not right)
(That—that's not right)
