

Forever Loved

Don Francisco

You're forever loved - Now and forever My love
surrounds you
Forever loved - Forever you will be my own
Forever loved - I give you my word that I will never
leave you
Forever loved - You'll never have to be alone

Long before you were created I knew you
I loved you and called you by name
And all through the ages I've patiently waited
For you to grow up to feel the same
Through all your sin and your sufferin' and sorrow
I've loved you and stayed by your side
Reaching to comfort and strengthen and heal you
And dry every tear that you've cried
'Cause you're

Forever loved - Now and forever My love surrounds you
Forever loved - Forever you will be my own
Forever loved - I give you my word that I will never
leave you
Forever loved - You'll never have to be alone

There'll never come a day when I fail you
Or tell you that my love has ended
You mean even more than my life to Me
Forever you have been befriended
And you're

Forever loved - Now and forever My love surrounds you
Forever loved - Forever you will be my own
Forever loved - I'll tell you again that I never will
leave you
Forever loved - You'll never have to be alone
