

Let Your Light Shine

Don Francisco

Let your light shine
So the world will know
That God's in you
Everywhere you go
Let your light shine
So the world can see
I'm alive in you
You're alive in me
Like a lamp that fills
A room with light
Or a town on top
Of a hill at night
So my life in you
Makes darkness flee
And it draws the lost
And alone to me
Let your light shine
So the world will know
That God's in you
Everywhere you go
Let your light shine
So the world can see
I'm alive in you
You're alive in me
Like a lamp that fills
A room with light
Or a town on top
Of a hill at night
So my life in you

Makes darkness flee
And it draws the lost
And alone to me
It's the Word of God
We declare to you
That God is love
And his love is true
And when we walk in love
And in unity
Then the light of God
Shines from you
It shines from you and me
Like a lamp that fills
A room with light
Or a town on top
Of a hill at night
So my life in you
Makes darkness flee
And it draws the lost
And alone to me
Let your light shine
So the world will know
That God's in you
Everywhere you go
Let your light shine
So the world can see

I'm alive in you
You're alive in me
