

## Pushin' On

Don Francisco

Nothin' is slowin' the way that I'm goin'  
I ain't gonna pay it no mind  
Whatever's waitin' and whatever's comin'  
It's all getting left behind  
Forgetting the things that go by in the mirror  
And reachin' for heaven above  
Not in the strength of the will of the flesh  
But in faith that works by love  
I'm pushing on, I'm pushing on  
Pushin' on, I'm pushin' on  
Now people are talking, I'm constantly hearing  
That somebody else is going down  
Turning aside, they've stumbled and lied  
And everyone's wearing a frown  
Why are you watching what anyone's doin'  
They're all gonna fail in the end  
There's only one place worth fixin' your eyes  
It's not on the world of men  
I'm pushin' on, I'm pushin' on  
I'm pushin' on, pushin' on  
Now I'm gonna run with endurance the path in front of me

Leaving the burdens and cares  
Casting aside every hindrance and weight  
And all that would try to ensnare  
Rememberin' the one who endured the cross  
Despising the shame and the sin  
I haven't resisted to blood  
But I'm gonna make it through to the end  
I'm pushin' on, I'm pushin' on  
I'm pushin' on, I'm pushin' on  
Now you can walk here beside me  
Or wonder what's happenin'  
But don't try to get in the way  
Because too many dying to spend my time tryin'  
To work through the games you play  
There's many who see what he's called us to be  
Keep his goal in front of your mind  
Because no other call really matters at all  
I hope you don't think I'm unkind  
But I'm pushin' on, I'm pushin' on  
Pushin' on, pushin' on
