

Your Love Is Safe With Me

Don Johnson

All I ask all that I ask of you is that you keep an
open attitude
take off your mask just bare your soul to me
can't survive under the lock and key don't be afraid of
me
I won't play with your mind I swear I'm not that kind
won't ever make you bleed your love is safe with me
I'll give you what you want I'll be your confidant
allow you room to breathe your love is safe with me
It's time to tear tear down the needless walls
build a door to places we'd never gone one touch up in
the clouds we'll be
one kiss we'll shake the earth beneath don't be afraid
to believe
I won't play with your mind I swear I'm not that kind
won't ever make you bleed your love is safe with me
I'll give you what you want I'll be your confidant
allow you room to breathe your love is safe with me
So follow your heart now reach out and take me baby
the river's not shallow but we can take it all the way
Above the clouds we'll be we'll shake the earth beneath
I'll give you room to breath your love is safe with me
I won't play with your mind I swear I'm not that kind
won't ever make you bleed your love is safe with me
I'll give you what you want I'll be your confidant
allow you room to breathe your love is safe with me
