

## Everyday Is A Miracle

Don McLean

Every day is a miracle, whoa whoa  
Every day  
Every day is a miracle, whoa whoa  
Every day

Well, I've been dreamin' a singular dream  
That I can know how to love you much more  
That I could understand what the meanin' has been  
I think I know but I'm not really sure

'Cause every day is a miracle, whoa whoa  
Every day  
Every day is a miracle, whoa whoa  
Every day

I'll never know why this world was begun  
I'll never know just what part I should play  
I only know that I love my place in the sun  
And that I'm thankful for you every day

'Cause every day is a miracle, whoa whoa  
Every day  
Every day is a miracle, whoa whoa

Well, in the hills I've always been free  
I've lived with the starlight covering me  
And when I look to the skies  
I know that love never dies  
As long as the sun can rise miraculously (Miraculously)

I live illusion as if it were real  
It slips away while it's right in my hand  
Now, if illusion is what reality is  
That's surely more than I can understand

'Cause every day is a miracle, whoa whoa  
Every day  
Every day is a miracle, whoa whoa  
Every day
