

You Got a Way About You, Baby

Don McLean

You got a way about you, baby
There's something special in your eyes
You got a way about you, baby
I can't tell you any lies

You got away from all the others
You just happen to be free
You got a way about you, baby
Now, don't you get away from me

You got a way about you
You got your way before
You got a way about you
You get your way much more

I wanna spend some time around you
I wanna spend some money, too
I wanna spend my mind and body
Bring best back home to you

You got a way about you, baby
A woman's ways could set you free
You got a way about you, baby
Now, don't you get away from me

You got a way about you
You got your way before
You got a way about you
You get your way much more

You got a way about you, baby
There's something special in your eye
You got a way about you, baby
I can't tell you any lie

I can't tell you any lie
