I live my life as a hustla

Yeah I live my life as a hustla  
I live my life as a hustla  
I live my life as a hustla  
Yeah I live my life as a hustla (yeah yeah yeah yeah yeah yeah)

I live my life as a hustla  
I give my life to my brothas  
We coming right from the struggle  
Moving that white by the bundle  
Nothing but evil inside of me  
I think these demons be guiding me  
We not accpeting apoligies  
You looked in my eyes and you lied to me  
I had to get in my bag, perfected my craft  
And now they acknowledge it  
You gotta take a few losses before the success  
That's just how it gotta be  
I used to shop at the dollar tree  
Now I can plant me a dollar tree  
Niggas hating never bothered me  
The love in the street mean alot to me  
Lost a few homies and a gained a few angels  
Watch out for the fame it'll change you  
The pills and the drank keep me stable  
I found a way, I was able to stay real and I stand by it  
New spot niggas can't find it  
But its so big that we can't hide it  
Imma dope boy and I can't hide it  
(I can't hide it nigga)

Yeah yeah yeah  
I live my life as hustla  
As a hustla  
I live my life as a hustla  
Tell me what's life without hustle  
Yeah yeah yeah yeah  
I live my life as a hustla  
Yeah yeah I live my life as a hustla  
Tell me what's life without hustle

I think them people was onto me  
Barely could sleep my dreams be haunting me  
I took my first loss and it torment me  
Got some work off my mans and he shorted me  
Yeah I live my life as a hustla  
I need a house with a butler  
Whole bunch of ice like I'm Busta

New hoes everyday like I'm Usher  
I Stood around envious kids  
Damn, man look what the jealousy did  
Fuck it, I stand on the ledge of the bridge  
They push me, just pray my legacy lives  
They'll never know what the recipe is  
You'll never know what your destiny is  
Stack a few millions so when I die  
They just give what I left to the kids  
Remember when I used to bathe in the sink  
Now I can call up an 8th for a drink  
Now I could hop out a wraith full of mink  
Now I got hoes outta state tryna link  
I got money stashed that I can't touch  
Got family members that I can't trust  
Close friends that I call brothers  
It's a small circle, and we all hustlas

Yeah, I live my life as a hustla  
I live my life as a hustla  
I live my life as a hustla  
Tell my what's life without struggle  
All of my life I just hustled  
Tell me what's life without hustling  
I live my life as a hustla
