

## Intro

Don Q

Yeah, I really couldn't believe this shit  
They tried to count us out time and time again (Big facts)  
But we trust ourselves (Right)  
We survived a lot (Lord knows)  
And we will continue to survive whatever's coming to us  
See that's the difference between us  
You see High Bridge, Don Cannon, Don Q  
We part of that successful 1% (We millionaires)  
Because we doing everything that 99% of y'all niggas won't (Yea)  
Don Season 2

Who can I trust in this world that we live in  
I look at the losing it got me fed up with this world that we live in  
Politicians running scandals tryna get you jammed in the dirtiest system  
Can't afford a lawyer gotta take a deal when you ain't deserve that conviction  
I feel like Trump ain't deserve that position  
80,000 niggas on the Island mean I'm talking yearly I don't think they hear me  
Break it down hope they get that theory  
But these basic clowns tryna interfere me  
It's a different ballgame when the law came around shit hit severely  
Trapping for some small change, made a small change now I see the picture clearly, yea

11 years of my life stuck in the hands of someone else  
30 thousand a year in tax pays for a prisoner like me  
Prison is a big business but became a bigger business since slavery became illegal  
Only designed for certain people

I just wan' see my young niggas live  
Babies having babies, kids killing kids  
They respond like it is what it is  
Yeah he gone but he did what he did  
I gotta be the one to notify him  
Since nobody cared to even show him guidance  
Devil on his shoulder while he holding iron  
Really this the only life they glorifying  
Shit get horrifying

We have to stop building this business and making it equal  
2.2 million people are sitting in prison  
Half of that 2.2 million people are innocent people  
We have to wake up and realize, life is bigger than the fast life

Momma told me take 20 minutes out the day and say a prayer  
I told her niggas might spin around the way I gotta stay aware  
It felt like Baghdad when I last passed  
Smokers sell they soul for that last drag  
Ain't no hope for you in that crack bag  
I seen dope needles in the trash bag  
I seen a nigga tell on his homie that he knew over 20 years  
Got him 20 years shit is weird  
Especially when you think it'll never come from you peers, but it did  
I seen a nigga begging for some help finally got it then he disappeared  
Stupid nigga you ain't never supposed to burn your own bridge but you did

I tried to forget and forgive, but niggas forget when I give  
You come out of pocket until you ain't got it and they gon' forget when you  
did  
Yeah, damn, look at the shit being generous did  
Close friends died all I do is thank God that the memories live

To my brothers and sisters in the struggle, no matter where you are  
Freedom is the goal, knowledge is the key  
And faith is the way to remain clear, stay alive  
Cause we living in a danger zone, peace
