

## Pick Up

Don Q

Made it out my city I was chosen  
I don't mix my business with emotion  
I just mix the pilly and the potion  
I just picked up 20 from my holster  
Let's pick up the tempo, let's pick up a nympho  
I know that you came with your friends, well y'all leave with me and it could be simple  
Just give me your info, you know what I wana get into  
Let's make a movie in back of the Benz and make it suspenseful

I'm heavily active, look at my jewelry it's very attractive  
Soon as she seen it you know that she ended up leaving it just a reaction  
You wanna stay til' the morning then let me record it and catch it in action  
Lay up in bed while you practice, I wanna wake up to head without asking  
As far as these bitches you know how I treat 'em  
I tell 'em I love 'em to only mislead 'em  
I fuck 'em and feed 'em as long as she show up and cum for the threesome  
I slap all this water on water you see when I walk it's a puddle beneath him  
Ain't no ignoring the aura she know when I talk it's a hustler speaking  
When I go out of the state, I let you fly out or come for the weekend  
She wanna rock all my chains, I go to trying on one of my pieces  
These bitches don't get entertained, you could just try out and come for the season  
You stay in your lane, I let you ride out with the top down let the breeze hit it
