

# Do It Right

Don Toliver

Oh, oh  
Oh, yeah

Baby, you can do it, take your time, do it right (Oh, oh)  
You can do it, baby, do it tonight (Oh, yeah)  
You can take me to your crib, you can ride it all (Oh, oh)  
You can do it, baby, do it to (Oh, yeah, do it to)

Take me to your crib and we can party all night (Oh, oh, take me, we can)  
Let's do it, baby (Oh, yeah, let's do it)  
Let's do it tonight (Let's do it)  
Take me to your crib and we can party all night (Oh, oh, take me, we can)  
Let's do it, baby (Oh, yeah, let's do it)  
Let's do it tonight (Let's do it)

And I ain't know why I fuck with you (Oh, oh)  
Gonna end up falling in love with you (Oh, yeah)  
It's the type of shit you expose me to (Oh, oh)  
Then I pulled up side by side in my Mercedes coupe (Oh, yeah)  
Ain't nobody got you like I got you  
We move higher and higher, you see what really matters  
Ain't nobody got you like I got you  
I been touchin' a bag and climbin' the ladder

Baby, you can do it, take your time, do it right (Oh, oh)  
You can do it, baby, do it tonight (Oh, yeah)  
You can take me to your crib, you can ride it all (Night, oh, oh)  
You can do it, baby, do it to (Oh, yeah, do it to)

Take me to your crib and we can party all night (Oh, oh, take me, we can)  
Let's do it, baby (Oh, yeah, let's do it)

Shawty once sat in my lap and said, "Your heart is just to steal" (Yeah)  
Shawty once heard my voice and then she started catchin' feels  
She wiped down the bowl to get her grip and clap her heels (Yeah)  
I can't see my feet, paint the room with dollar bills  
So what's there to do? (Oh, oh)  
I'm in a mood (Oh, yeah)  
Don't stop vibin' (Yeah, yeah), keep it cool  
Made you revenue (Oh, oh)  
Baby, what's the move? (Oh, yeah, what's your move?)  
Don't give up on your purpose  
In the strip club, but you're still workin'  
Feel like you're runnin' in circles, I know what your worth it

Baby, you can do it, take your time, do it right (Oh, oh)  
You can do it, baby, do it tonight (Oh, yeah)  
You can take me to your crib, you can ride it all (Oh, oh)  
You can do it, baby, do it to (Oh, yeah, do it to)
