Don Trip

(What's up, Juwop?)

(Beat those drums)

Yeah

I was gon' try and think of somethin' clever to say, but

But fuck it

Just in case someone's lookin' for me, that's easy, I'm where the money at

I heard all your jokes, still ain't found shit funny yet

Niggas is pussy, go pop a Perc' and a money stack

If a bitch ever leave me, believe me, I never want her back

So many options, I take my pick like a pumpkin patch

In my neck of the woods, we swing that stick like a lumberjack

I'm on a mission, you in my way if you turn your back

It's fuck you for life, bitch, I'm on a honey pack

And I go and hunt with the pack and we bring home dinner

I watched my granddaddy make a pipe out of car antenna

And where was y'all antennas? We nearly starved last winter

But we just kept holdin' on like we called a callback center

We still drownin' in debt, I figure we all bad swimmers

So I went straight for the blocks, feel like I'm startin' at center

Please don't start with that nigga, he tends to take it too far

Got that nightlight on the blicky like I'm afraid of the dark

Nobody safe in these parts, it's best you stay where you are

Or else them goons get to creepin' like they Left Eye and T-Boz

I never leave it at home, I'm with whatever we on

For your diamonds, I'll turn this bitch to Sierra Leone

Niggas might laugh 'cause I'm old, I'm glad I lasted this long

Doctor looked at my x-ray and said, "Boy, you bad to the bone"

My kids call that a dad joke

Lookin' at your bank account, boy, that's a bad joke

You ain't want nobody to know? Oh shit, my bad, bro

But on the bright side, you finally made me laugh, though

Yeah, I'm such an asshole

I told the plumber break the knob and let the cash flow

I can show you how to get this compensation, just call my office for a consultation

But until my paper get a confirmation, I ain't got no patience for a conversation

Never duckin' no confrontation, two pistols singin', that's a compilation

Heart cold, shit cold as ice, I ain't sweatin', baby, that's condensation

I'll detonate for my denomination, like I'm part of nation domination

Pretty bitch in the kitchen and you know she whip it, whip it like a dominatrix

All I needed was cooperations, but here you go with all the complications

Got shooters with me, we gon' lock it down or we gon' spin like we know the combination, on Pif

Spin like we know the combination, on Pif

We gon' spin like we know the combination, on Pif
