

Conflicted

Don Trip

I know she love me like she say she do
She tell me time and time again
But I just can't stop fucking, her friends!

My love is like a drug, she think she needs me
I had no warmth in my heart, I let it deep free
Baby girl, sexy drive is a GT
And if she put me to the test, I gotta cheat sheet
She say I make her complete
I go get that pussy wet, and then I sweep her off her feet
Oh no, I might need a mop
It looks like she sprung a leak
It looks like we made a mess baby, that's alright with me
Baby, I just give and go, and pay my visit, I ain't staying
I keep her on her knees, but I'm not God, and she's not praying
I heard money make her come, oh good luck, cause I'm not paying
No, she love me, but she hating in am

I know she love me like she say she do
She tell me time and time again
But I just can't stop fucking all her friends!
I know! She still can't let me go
I know she love me like she say she do
She tell me time and time again
But I just can't stop fucking all her friends
I know, it's cold
But I'm a dog, I just can't help it
Know she love me like she say she do

I know, I just slap her on her ass
Then her panties hit the floor
I say go been up and... and now that I'm done she had to...
I say that pussy getting wet, I need a flot, or a boat
We sell her mattress to her sheets, I make her come before I leave
I won't fuck around, be here all week
Can't tell my fam I'm lost sea
I go in, and then repeat
And then repeat and fall asleep
When I wake up, she wants so more
It's fine with me, it's fine with me!
Baby, I just give and go, I pay my visit, I ain't staying
I keep her on her knees, but I'm not God, and she's not praying
Money make her come, oh good luck, cause I'm not paying
No, she love me, but she hating in a...

Yes, I'm so convinced

I had to put her in the game and put her friend back on the bench
I'm more fresher than a mint, can't you brush me off like lint
Never met a guy as fly as me, but I can't be your Clark Kent
She lay it down, spread it out, I'm laying in, we sweat it out
I'm knee deep, you wanna marry me
I disappear before I read the vow
No common bonds, no wearing gowns
I lift her up, before I let her down
That was last week. she is better down
Sorry baby, quit playing around!
I just give and go, I pay my visit, I ain't staying
Keep her on her knees, but I'm not God, and she's not praying
I hear money make her come, oh good luck, cause I'm not paying
No, she love me, but she'll hate me in am
