

## Everlasting

Don Trip

Nothing lasts forever, but we hope and pray  
All the bills from yesterday don't post today  
Try to treasure everything I have, but still feel throwed away  
I can't keep my balance, I ain't quite learn how to rollerskate  
Tryna dodge the obstacles on my block, shit like a roller rink  
Fuck the other side, we spinnin' back like we our own DJ  
My lil' homie got hit with a bullet like he OBJ  
I want you to go be great, but watch who you associate  
Life's a bitch, but it is what it is, shit ain't gon' always go  
your way

Some shit just ain't gon' work out, some shit just ain't meant  
to be  
You just gotta make your peace, you'll shake back eventually  
Hopefully, knife they put in your back, this time don't go too  
deep  
Really sometimes you just gotta trust your gut, don't overthink  
Everyone that's with you can't come along for the ride  
Sometimes we go ambitious and our friendships don't survive  
Then we grow apart, get too in our feelings and go overboard  
Just because we went our separate ways don't mean let's go to w  
ar  
Niggas can't coexist no more just 'cause we don't clique no mor  
e  
Now we kill and die over pride, it's a deadly sport  
But we gladiators, we go hard or we go home in shame  
Watch your brothers fall in battle, pray you never know that pa  
in  
Products that we profit from, we all to blame  
Call my plug up with a guilt conscience 'cause I thought I chan  
ged  
I watched mama struggle, thought the hustle was the only way  
Someday I gotta go, but when I go, I hope it's from old age  
One day, I gotta go, but when I go, I hope it's from old age  
Yeah

Nothing lasts forever, but we hope and pray  
All the bills from yesterday don't post today  
I try to treasure everything I have, but still feel throwed awa
