Don Trip

(What's up, Juwop?)  
(Beat those drums)  
(It's alive)  
(Oh, it's alive)  
(It's alive, it's alive)  
Okay

Ain't nobody built like me, baby, I designed myself  
Keep gettin' better and better after every time I fail  
Learn from every time I lose, I do not abide by the rules  
I do what I want when I want to, how 'bout you?

Let's get rich, baby, get rich, baby  
I love the money, I'm fixated  
I'm Dunder Mifflin, I gets paper  
If time is money, I'm impatient  
I make the money, I count the money  
It's an indescribable sensation  
I'm David Ruffin to the fast money  
I just can't resist the temptation, woo  
Damn it, Neal, still a fly guy when I'm standin' still  
I don't take no pictures with my money  
Ain't a single dollar bill in my camera reel  
Whoever's in my way is gonna get stepped on with both feet  
Keep the banger in close reach, I'll twist a nigga like a door key  
We are not the same, you and I, somebody told you a lie  
If I was a superhero, I'd be Superman, me super fly  
How cool am I? Foolish pie, try crossing me and get crucified  
Take my wife back to Tiffanys and then lace her up like her shoe untied  
All the bills is paid, the meals is ate  
I got a natural high, I can't feel my face  
Big homie used to flip the bricks  
Now it's different bricks, he flip real estate, that's dope  
You ask me, that's growth  
I know niggas like fifty years old, never let the sack go  
It is what it is, I ain't here to judge  
I remember when I used to need the plug  
Shit, I'm still addicted to the fast money  
Honestly, the hustle is its own drug  
Might buy a scale just to feel a buzz  
Say I really had to get it out the mud  
Look how far I made it from the place I was  
Now I make a living off the thing I love  
Long live Pif

Told me I design myself  
Sometimes, gotta take some time out to remind myself  
Learn from every time I lose, I do not abide by the rules  
I do what I want when I want to, how 'bout you?  
Ain't nobody built like me, baby, I designed myself  
Keep gettin' better and better after every time I fail  
Learn from every time I lose, I do not abide by the rules  
I do what I want when I want to, how 'bout you?  
Long live Pif
