

# I Could've

Don Trip

I could've bought me a watch  
I could've bought me a drop  
I could've bought me a chain  
I could've went back to the block  
But the rent was due, and my stomach was growling  
And my [?] was hurting, and the bills was piling  
We comin' from the bottom, with a long ass climb  
Funny it won't take but a second, to fall back down  
Oh no, I can't stall right now, and I know time won't wait for me  
Full-time grind, till I'm rollin' in dough like a bakery  
My family dysfunctional, but love them like the Huxtables  
I would be at Benihanas, but my kids want lunchables  
Ain't life grand  
My shoes cost a grand  
Call my success in stone, and all my failures in sand  
I'm from the school of hard knocks, and I've still got morals and principles  
If only this 10 millimeter could make me invincible  
All this money I've made, and I'm still invisible  
Cause they don't see a rich black man, they just see a decimal  
I got bitches in my dressing room  
I got rappers on my testicles  
I could run a list of names to you, but I'm tryna be professional  
I'm just stayin focus, tryna smell the roses  
You probably make more than I do, I just never noticed  
Nah!  
I just never cared, teach my babies how to share  
You do know the game is all rigged, see even the fair ain't fair  
I could've bought more and flossed, I could've tricked it all off  
I could've payed for protection, instead I bought more yachts  
And I hear all that talk, since when did killers write blogs boy  
I got bigger shit to deal with, Jaden and Kaya want a dog  
And I don't fuck with pets, I told them to wait until they 10  
I got three more years till I have to revisit that again  
And I hope you've grown by then, besides we grown ass men  
I could've acted like I gave two shits, but I cannot pretend  
I could've bought me a watch  
I could've bought me drop  
I could've bought me a chain, instead I bought me a spot  
Instead I bought more guns in case they try to come take what I got  
I hope you can take a few shots  
I feel like taking the squad  
I feel like shittin on all these rappers, feel like payin' too much in taxes  
Feel like I'm takin' my money up out the bank and puttin' it back under my mattress  
I went and fucked me an actress  
I ball, fuck is practice  
Watchin' the world burn, from one little book of matches  
I could've bought me a watch  
I could've bought me a drop, instead I went and bought my kids all the things my mama couldn't afford to cop... and they don't even play w

ith that shit
