

## Keep Counting

Don Trip

I said I bet all my money on the man in the mirror  
I'm so grateful that the shit I've done ain't land me in prison  
I sit lonely at the top, but I stand and deliver  
You looking for something real, I'm the man to consider  
I got ice in my veins, I got shit on my mind  
I'm just making something shake, like a fish on the line  
I make more than brick money, when I whip up a rhyme  
You ain't fucking with mine, I forgive you for trying  
Ain't a damn thing free, not even freedom of speech  
It's a cold cruel world, baby see this is green  
And I'm grinding up, the last thing I need is sleep  
I be at them niggas' necks, like a Jesus piece

Say they gon hate on you no matter what, just keep counting up  
They don't wanna see you winning, so just keep counting up  
They don't like it, that's their problem, nigga keep counting up  
p  
They got shit to say regardless, worry when they stop talking  
Say they gon hate on you no matter what, just keep counting up  
They don't wanna see you winning, so just keep counting up  
They don't like it, that's their problem, nigga keep counting up  
p  
They got shit to say regardless, worry when they stop talking

Full time grind, I been at it all night  
Sorry I can't pay no bills, with no Instagram likes  
Look at me, I done moved everything except white  
I'm just fortunate I never been reading my rights  
But that's old, I put up the ball, never trust a soul  
I left all my friends at home and took my brothers on the road  
I got closets full of weapons, I got no room for my clothes  
I got luggage crowd my living room, I'm always on the go  
More and more inspired, every time they tell me no  
Yeah my heart is cold as ice, they can't never say I'm froze  
They can't ever fit they look to say I'm going against the code  
I do all my dirty laundry so I know nobody talk

Say they gon hate on you no matter what, just keep counting up  
They don't wanna see you winning, so just keep counting up  
They don't like it, that's their problem, nigga keep counting up
