Don Trip

Little I started lyin' in his eyes
Tell him I am king, daring him to growl
Sinner of the jungle, survivor of the wild
We all tryin' to eat, I'm on a full time prowl
Stand up guy, never kneel, never bow
Hid in the sky, wipe my tears on the cloud

Prepared to go to battle right now
I would quit but I ain't never learned how
I would quit but I ain't never learned how
I would quit but I ain't never learned how
If you don't love me now (You don't love me now)
Then you'll never love me again
Prepared to go to battle right now
They have the skill and the say and you'll never take the chance (never take
the chance)
If you don't love me now (You don't love me now)
Then you'll never love me again
Prepared to go to battle right now
I would quit but I ain't never learned how
They have the skill and the say and you'll never take the chance (never take
the chance)

Shit I'm goin' in till I run out of tomorrows
Fightin' for my God given right to be a father
It ain't even fair, I end up with the shorter
End of the stick boy, I hope it isn't karma
I live amongst thieves where they say there's no honor
Naturally we old after kamas
So I got my riffle fully loaded while I fasten up my armor
I'm deadly as a suicide bomber
Know them bullets hotter than the devil in the sauna
Say it, cause all you boys suffered in the Jonas
'Bout to squeeze lemons on niggas, no Coronas
All over the paper like copy machine tonner
Whatever don't bury me will only make me stronger
Everyone is brave, blame it on my hunger
You might disappear you stand still any longer
And you don't get to eat unless you help me when I'm flamin'

If you don't love me now (You don't love me now)
Then you'll never love me again
They have the skill and the say and you'll never take the chance (never take
the chance)
If you don't love me now (You don't love me now)
Then you'll never love me again
They have the skill and the say and you'll never take the chance (never take
the chance)

Sheer, I put my heart on the beat
Life's a battle field, carry scars as reseats
Still spittin' out the taste of defeat
I'm a win even if I gotta cheat, capisci?
Your top is never out of reach
And I can't even think the last time I got some sleep
But tomorrow's never coming so I'm living on my feet
Hit the ball, all you other motherfuckers take a seat

They in awe, they in awe cause I'm a beast
Can't contain me with no cage and you can't hold me with no leash
Know the game dirty but I'm one of the elite
With my championship team tryin' to pull a repeat (Nice!)
I think I have OCD, hand full of dirty money tryin' to keep this shit neat
The weight on my shoulders is heavier than me
I agree, life sucks, but I wanna succeed

If you don't love me now (You don't love me now)
Then you'll never love me again
They have the skill and the say and you'll never take the chance (never take
the chance)
(Oh again, life sucks, but I wanna succeed)
If you don't love me now (You don't love me now)
Then you'll never love me again
They have the skill and the say and you'll never take the chance (never take
the chance)

Sheer, inside, general, front and center
With the shit, young clip, short temper
Keep quiet while I make this shit monumental
You interrupting, wave hi to a hundred pis-pus
I'm not yelling seize fire to them hundred niggas
You disturb their food, of course they wanna kill you
Wild pack of wolves and I'm running with 'em
When you eat with crooks you bring your gun to dinner
Blood red I'm sorry but you can't become a member
Put them plikers out on you and you'll become a sprinter
Shout out, my nigga Turk, I still trips with him
They have my nigga locked down for like six winters
The more money, the less it gets simple
But when you're broke nigga, everything's expensive
Ready to pop this very instant and turn the eye witness to a victim

If you don't love me now (You don't love me now)
Then you'll never love me again (Oh again, life sucks, but I wanna succeed)
They have the skill and the say and you'll never take the chance (never take
the chance)
If you don't love me now (You don't love me now)
Then you'll never love me again
They have the skill and the say and you'll never take the chance (never take
the chance)
