## Don Trip

Okay I tried to be a gentleman (I tried to be a gentleman)  
But that shit made her blush (But that shit made her blush)  
I tried to be romantic she couldn't stand it  
But I slapped her on her ass and she went nuts (Slapped her ass and she went nuts)  
I guess that way she like it rough  
I give it to her how she like it  
She likes it rough  
I give it to her how she like it  
She likes it rough  
I give it to her how she like it  
She likes it rough  
I give it to her how she like it  
She likes it rough

She sip a bit, she smoke a Loral  
She like her hair pulled, get choked a little  
I cut her up like open scissors  
She have a ball, she double dribble  
No referees, she blow my whistle  
Sucking life out me, boa constrictor  
No strings attached and no restrictions  
Her love's a drug, you don't need no prescriptions  
I'm hooked on her, going fishing  
We on round two, we might go the distance  
We catch a nut but ain't no catching feelings  
I'm not her boyfriend, I'm a one of many

She pop a pill, that's her excuse  
So she not held accountable for what she 'bout to do  
I hope it's tight so I can knock it loose  
And she wearing the stilettos but we knocking boots  
I'm very manish she like it too  
I guess I'm a file peer, I like to screw  
Lie in my bed, naked truth  
And she soaking wet  
Oh yes, I'm 'bout to take a cruise  
I beat that pussy up and then I take a snooze  
Then I'm back in it again, I got somethin' to prove  
Spend the whole weekend in the nude  
No foreplay, she already in the mood
