

Shut Up

Don Trip

Down the highway, in the rented Activer
Bricks in the trunk, pretty bitch on the passenger
Tryin' to get paid for each day on my calendar
Duckin' speed radars and traffic light cameras
Seatbelt, speed limit, oh no I'm no amateur
Signal lights and no phones but still got the hammer took
There's a state trooper right behind us tryin' to jam us up
Are we good? Cause if the search the Sedan, we fucked
Yes my love, while they passing us
She rolled down the window and tossed out a plastic cup
Stupid bitch about to get us both slammed in cuffs
It's all over if she panic, damn it, fuck
And I'm a kill this bitch literally
She 'bout to get me twenty years just for littering
Well today must have been my lucky day
Cause he just shook his head at her and drove away

Now bitch shut up and let me drive
Shut your mouth once you hop inside
Bitch shut up and let me drive
And you know what we gonna once we arrive
Bitch shut up and let me drive
How many times I gotta tell you be quiet?
Bitch shut up and let me drive
I'm 'bout to kick your ass out this ride
Bitch shut up and let me drive

On y way to drive to work oh
I call the serf for help my sack on the firm call
After that I'm 'bout to slide this bitch skirt off
Fat pussy, ass softer than a nerve ball
Well she talks too much and that's a problem
She's striking conversations with niggas while they shoppin'
Now I don't wanna slap her but I will if she don't stop it
If she makes these niggas nervous, I might have to pop 'em
Cause she could make 'em feel like a nigga tryin' to rob 'em
So I really gotta watch it while they reachin' in their pocket
I'm reaching for my rocket just in case he tried to get stupid and weigh his
options
I have to leave 'em rotting
I'm strapped like I'm huntin' been lightnin'
I made too much motherfuckin' money to be rappin'
I really hope these don't make me have to off 'em
Cause I'm a have to do her too cause she just sat the and watched me

Bitch shut up and let me drive
Shut your mouth once you hop inside
Bitch shut up and let me drive
So you know what we gonna once we arrive
Bitch shut up and let me drive
How many times I gotta tell you be quiet?
Bitch shut up and let me drive
I'm 'bout to kick your ass out this ride
Bitch shut up and let me drive

Now it's time to pay my tab
Hop back whipper, head back up the slab

I'm in the hole I'm tryin' to bed all fans
Then I'm finished with the birds like Wes Brook and Mac Nab
I'm all about my cut, like a scab
Ballin' with the green like the bucks in the mails
And I will pay my block every book that I have
They handle what I owe and maybe step back
School Hard Know, it really is a school
And I'm really fucking up cause I bend the rules
I've got a bit with me so I've been the fool
Cause I'm just thinking about driving and getting chewed
Knows a bit and I let her pick my every move
It's just so I can get head, like the hair doo
I must 've been out my fuckin' mind
So I pull the whip over to the side
Pulled her out and said goodbye

And now I finally get to get some peace and quiet
Bitch shut up and let me drive
I said I finally get to get some peace and quiet
Bitch shut up and let me drive
She shut up and let me drive
Bitch shut up and let me drive
