

Statues

Don Trip

Sound like I'm— sound like I should, like, have my jewelry clankin' or some shit, right?

Really, I'ma go buy me some chains

Aight

Stand on it if you ain't scared

Say it to my face, don't say it in the air

If it ain't 'bout no money, never mind, I don't care

'Cause I already got enough problems to share

I already got enough problems, I need help

But I know I'm stubborn, so I had to help myself

And these days, time ain't the only thing that tells

Y'all turn into podcasters when you can't make bail

I never cut corners and I used to sell squares

Touched more 'bows than the arms on a chair, yeah

Nigga, yeah, fuck yeah

I am a machine, but I'm beyond repair

What goes around is comin' back around, I'm aware

But I get away smooth like Nair

And I keep the hammer, step around or get nailed

Went and sold dope, dudes, you could've got a deal

Well, good I got my scale

We both know where I'm headed to if all else fails

But on the bright side, I'm ecstatic to be here

Picture me trading places with you, I wouldn't dare (That nigga Ladd got the juice, ho)

Stand on it if you ain't scared

Say it to my face, don't say it in the air

If it ain't 'bout no money, never mind, I don't care

'Cause I already got enough problems to share

I already got too many problems to address

I'm such a businessman, Glock 9 on my desk

With my fine-ass wife, 'bout to tear her out her dress

If the devil wears Prada, oh my, God bless

Somebody call the cleanup crew, I made a mess

With my vampire empire comin' at you next

Give me everything I earn, not acceptin' nothin' less

I be stuntin' for my babies, I'm not worried 'bout my ex, check

Stand on it if you ain't scared

Say it to my face, don't say it in the air

If it ain't 'bout no money, never mind, I don't care

I already got enough problems to share

Man, well, stand on it if you ain't scared

I cannot respect it if you say it in the air

It ain't 'bout no money, never mind, I don't care

I already got enough problems to share

Long live Pif

I already got enough problems to share

Yeah

Got enough problems to share
