

War

Don Trip

Shyaaaahhh! This means war!
This means war!
Shyaaaahhh!
Grab your hard hat, and your flak jacket,
Before the shit can settle down, I'm going back at it
Leave the chopper barrel smoking like a crack addict
And hop back in faster than a jack rabbit
I am hungry, you're just a snack package
I'm about to make you disappear, now that's magic!
Fully automatic, full metal jackets
Two taped up, clips on a no attachments
Fuck your peace treaty nothin happening
Sub machine guns about to start subtractingg!
Body everybody won't give a fuck after
Aggressive appetite, no veggies, just rappers
Prepare for danger and we speak, all my clips filled to the T
I'll take your life with no receipt
Oh no, no, beat, we ain't too deep
Now save the world, now save the sheep
Got that thirty, thirty, guarantee it reach
Find your course with no ID
Then you gon have to, use you teeth!
R.I.P! It's, it's unfortunate ill be the last face you see
But good grief, nice we meet, but you seats rot in peace!
Try to warn you, Yous about to wake a beast!

This means war
I'm front and center
Though I'm outnumbered I never surrender!
This means war
No white flag waived, I am not afraid
No retreat, no trade!
This means war

This is not about violence
This song is a metaphor, I'm not a tyrant
The rap game is unsafe as long as I'm in
I'm about to bring you to your throat no violence!
My first attempt was unsuccessful, had to try again
Saying goodbye to taking trips down to I-10
Shark in the water, check my Fin
Dive in and become fool, dine in
Watch me murder the beat like only I can
Whoever decide to disagree, is not a wise man
Ak 47, it's every guy's friend
No map could ever navigate you to where I've been!
Yeah, yeah and I put that drum on that so come on back
When I hush up, and the gun go BLATTT
Your vital signs go Flat,
I come from the jugnle where there's no rat
OK, here they are, and we set traps
And I am sure you are familiar with what happens when they snap
How about that?
I'm on my grizzly and I got Memphis on my back
And I got that top locked in my safe
Al right, already set attack
Might be a skinny nigga sitting fat,

But I'm here to wage war on rap and that's a motherfucking Fact.

This means war
I'm front and center
Though outnumbered I never surrender!
This means war
No white flag waived, I am not afraid
No retreat, no trade!
This means war
