

# Get Away

Don Williams

I been cryin so long  
I been a watin for you to come along  
There you are what can I say  
I wont ever let you get away

I been sittin by myself  
Been compairin you to ever body else  
You always won each hand you play  
I wont ever let you get away

I can't pretend that you might happen twice  
An I can not leave you to ur own device  
Thinkin bout it takes to long  
There aint no right there aint no wrong  
This kinda deal don't come along every day  
I can't let you get away

I been prayin for a sign  
For heaven to show me which road was mine  
An then you smiled my knees gave way  
I took that for a sign that you should stay

Well I can't pretend that you might happen twice  
An I can not leave you to ur own device  
Thinkin bout it takes to long  
There aint no right there aint no wrong  
This kinda deal don't come along every day  
I cant let you get away

Get awayyyyy  
Get awayyyyy
