

Look Around You

Don Williams

How do you like it
Being lonely
From what I see
You're someone who knows
Well, maybe you and I
Could get together
Then we won't be lonely anymore.

Look around you
See where you've been
You may never have to
Pass that way again
Look around you
If you need a friend
I might be the one
Who'll make your loneliness end.

Would you like to have someone to hold you
Someone to tell your troubles to
Someone to catch you if you've fallen
Someone who really cares for you.

Look around you
See where you've been
You may never have to
Pass that way again
Look around you
If you need a friend
I might be the one
Who'll make your loneliness end...
