

## Mistakes

Don Williams

People tell me, boy you're crazy  
Some people say that I'm nuts  
For trying to get back together with you baby  
They say that once is enough.

I never should have left you  
'Cause now I need you  
Sometimes it happens that way  
I come back like a fool who's believing  
No matter what they might say.

I don't want to hear another word  
Don't need your well thought out advice  
Though I thank you all for being kind  
I can make mistakes, myself just fine.

I've got a good friend  
Who knows my trouble  
He thinks I'm wasting my time  
Go out and have some fun  
She's not the only one  
But I can't leave her behind.

So, I don't want to hear another word  
Don't need your well thought out advice  
Though I thank you all for being kind  
I can make mistakes, myself just fine.

I don't want to hear another word  
Don't need your well thought out advice  
Though I thank you all for being kind  
I can make mistakes, myself just fine.

No, I don't want to hear another word  
Don't need your well thought out advice  
Though I thank you all for being kind  
I can make mistakes, myself just fine...
