

# True Love

Don Williams

Adam met Eve on a Saturday night  
That's when the trouble started  
She said Adam let's go for a bite  
She led him to the garden

And ever since then  
We tried to make sense  
Of this mystery emotion  
But we might as well try

To count the stars in the skies  
Or those raindrops in the ocean  
Will you know it's true love  
Deeper than deep

Hotter than the fire  
When it's hard to find  
And it's harder to keep  
It's the thing we most desire

I was alone for so many nights  
I really started to wonder  
If I had run out of chances to find  
A spell I could fall under

Then you walked in  
Like in an Elvis film  
You were singing Love Me Tender  
I was hypnotized

By your blue eyes  
And the next thing I remember  
Will you know it's true love  
Deeper than deep

Hotter than the fire  
When it's hard to find  
And it's harder to keep  
It's the thing we most desire

And there is a true love  
In a winking eye and  
A sweet perfume that lingers  
And it's an I love you

On a new tattoo and  
That diamond on her finger  
Will you know it's true love  
Deeper than deep

Hotter than the fire  
When it's hard to find  
And it's harder to keep  
It's the thing we most desire
